

Island House

D C G/B D

When the sky is gray I look to you by my side

When the sky is gray I may look to you

And the clouds do part to the light of a clear blue day

Am D

You cared for a small dog

But his breath smelled all wrong

You're probably so petite

F G

Because you don't eat meat

Dm Am

I could build a tiny house

F G

Steady to the waves

You could dine on coconuts

We could text all day

Repeat

Pepsi Song

 A B7 D A
If you're like me then you live in a fantasy
F#m F A
like a Pepsi Cola ad
And if your life is full of stress and strife
then maybe you should buy a can

I drive to work
The world thinks I'm a jerk
Because I own three S.U.V.'s
But I like my fries
Extra-crispy size
So I can pollute the land

Dmaj7 Amaj7 Bm7b5
I could dance to cheesy love song
But should we dance to a corporate love song?

Chorus

Did you get the word?
Grandma flipped you the bird
Now shut up and plant some trees
I'd grow my food
If that's not too rude
Except Monsanto owns the seeds

Don't Blame Leon

C D G
Don't blame Leon

F G C
He don't need the blame
I don't know what he did
I just know his name

Am Em
The stars burn much brighter in Texas
F G
And the moon remains
Dream about me darling
And I will do the same

Chorus

Can you see from your window
To the light of passing train?
Can you sing to the darkness
My old friend?

Chorus

Rainbow Pants

A A/G A/F# A/F

I always like to ride my bike
Usually flying through the trees
Sometimes seeking for adventure
Never, ever costing me

Bb A

C B

He's growing a beard today

E F E

Now you've talked to all the gnomes
Little people in their home
Did you buy a magic carpet?
Would you have a place to park it?

Freddy

D Em F#m Em

Freddie lived in a world of apathy

His bed was unmade and his clothes were wrinkle-y

G A B C D

Asleep at the wheel No drive in sight

C G F#

He was "alright"

Freddie sat and he drank an ice-cold beer

Suddenly he stood up out of his chair

What could be wrong?

Should I have cared for the orphan dog?

Is there a God?

D Cm C G

When you're cool you're cool like jelly bean

Dm C C G

In the summer does she bring you tangerines

F#

With peach ice cream?

E

Or is a dream?

Freddie Freddie What's the deal?

Freddie Freddie Just say what you feel

Freddie Freddie Do you know how to steal?

Stealin' Mind

E
I've been sitting in this chair for too damn long

A B
One of my legs is half gone

E
I'll be picking out your locks

A E
I won't be changing out these socks

E B E
Sometimes you've got to live on the run

E A E
I used to be a respectable man

E B E
But times got hard you gotta get it where you can
Stealin' I know it just ain't right
But sometimes you've got to make it through the night

C#m B A Abm F#m B
Hold on, Everybody needs someone
Love as one, Everybody needs a gun

Don't you know that I'd do better if I could
But mama didn't teach me and daddy was no good
Are you one to help a fellow man?
Cause you know I'd take your money if I can

Chorus

I don't need no fancy car
Just five or ten a little something for my arm
Stealin I know it just ain't right
But sometimes you've got to make it through the night

My baby needs the boots
She needs those strappy leather shoes
You know she tried to pay with cash

She needs the ones with little strings
So she can tie them to her feet
But the way they let 'em loose
I call it customer abuse

She needs the boots! X 3
